OVERVIEW

The Speaker of the Assembly, the President Pro Tempore of the Senate, and the Assembly and Senate Budget Committee Chairs announced a legislative agreement on the 2020-21 state budget on June 3, 2020. This sets the stage for legislative negotiations on the budget with the Governor and his administration. The Legislature will meet the June 15 deadline to pass a balanced budget bill.

Building on the Governor's May Revision framework, including the Administration's sober economic and revenue forecast, the legislative budget plan reflects a strong likelihood of more federal relief and uses reserves and other state balances to avoid overcutting now when California families are so vulnerable and future revenue and economic trends are so uncertain. Funding K-14 schools above the Proposition 98 minimum guarantee and providing increases in university funding, the plan protects vital health and human services programs and aims to protect jobs and preserve vital services. Funding is provided for local governments, building on the Governor's proposals to provide federal funding for the state's partners in administering public programs.

Assuming receipt of \$14 billion of added federal funds – the amount discussed in the Governor's May Revision – the legislative budget plan contains total reserves (preliminary estimate) of \$11.8 billion, including \$2.6 billion in the discretionary reserve (the Special Fund for Economic Uncertainties, SFEU), \$900 million in the Safety Net Reserve, and \$8.35 billion in the Proposition 2 rainy day fund.

If federal funds are not received, "trigger solutions" take effect under the legislative budget plan. The legislative plan maximizes use of budget reserves and makes selected payment deferrals to minimize cuts to important programs if Washington, D.C. does not play its vital role in the nation's recovery. In the legislative trigger plan, if the federal funds are not received, the following actions would occur:

- \$2.7 billion more in draws from the rainy day fund and Safety Net Reserve
- \$1.3 billion one-time benefit from reinstatement of a longstanding deferral of state payments to CalPERS, including from state special funds
- \$5.3 billion of increased deferrals to Proposition 98 (K-14 education) funding
- \$600 million reduction to the county realignment backfill in this budget plan (leaving \$400 million of county backfill remaining)
- \$770 million of university reductions (\$370 million for UC and \$400 million for CSU)
- \$100 million of reductions to the judicial branch budget
- \$1.6 billion from any baseline savings or revenue increases not scored in this budget and, as a last resort, reinstatement of the one-day June payroll deferral that was instituted during the last recession.

If the federal funds do not arrive and these trigger actions take effect, total reserves would be \$7.5 billion, including about \$1 billion in the SFEU and \$6.5 billion in the rainy day fund.

Collectively bargained state employee agreements and/or an expansion of the managed care organization (MCO) tax to leverage more federal funds have been discussed during the budget process and may increase reserves further in the future.

The legislative plan sets money aside to make additional emergency state expenditures related to the coronavirus. Working with the Governor, the plan anticipates a new process to enhance legislative control and oversight over the \$2.9 billion of coronavirus emergency funding proposed by the Governor in the May Revision (about \$700 million of which would be paid—net—from the General Fund, with the remainder coming from anticipated federal match funding).

The legislative plan reflects key Assembly priorities with \$350 million of funding for homelessness programs and a historic expansion of the California Earned Income Tax Credit program to all eligible families, including those with Individual Taxpayer Identification Numbers (ITINs), with children under age 6. The legislative plan also aims to expand Medi-Cal to more seniors, regardless of immigration status, in 2022 if funds are available. The legislative plan, therefore, reflects California's values of building more opportunity for all, even as the state's leaders use its substantial reserves to preserve vital programs during this time of economic challenge.
